

## **Graphic Design & UX/UI Design (m/f/d) Intern or working student**

Are you looking for a fun job that gives you the freedom to develop yourself, learn new things and be effective? Then you are very welcome in our team!

### **We are:**

Winkt 🙌 Winkt is a Berlin-based startup with a social reality platform that allows people to interact with each other when they are in the same place at the same time. We want to enable our business customers to reach local people and give our end customers all the information they need onsite. Read more here: [www.winkt.me](http://www.winkt.me)

### **We are looking for:**

Graphic Design & UX/UI Design intern or working student for the upcoming summer semester 2022.

#### **Your tasks:**

- You will support the development process within UX/UI concepts and website optimization strategies.
- You will support the development of user-centered UX/UI solutions
- You will design click dummies and user flows
- You will help with user interaction design and design of basic to advanced B2C and B2B web applications
- You will implement digital banners

#### **Your profile:**

- You are already experienced as a graphic designer or in UX/UI design and you are full of energy and fresh ideas.
- You enjoy working together to develop and implement new ideas
- You have a creative way of solving problems as well as an independent way of working
- In the best case, you have gained first experience with design tools (e.g. Figma) and website creation
- You are fluent in German and English

#### **What we offer:**

- You can expect a dynamic, nice, open-minded team
- Flexible work with a wide range of creative opportunities and exciting projects
- The opportunity to continue working for us after this position and to create your own workplace
- The chance to continuously take on more responsibility and develop yourself further
- Flat hierarchies & short decision-making processes

We are looking forward to you and your application! 🙌
